

Math Poster Project

Make a large poster showing important Math Concepts.

Here are some examples:

- Pythagorean Theorem
- Distance Formula
- Midpoint Formula
- Trigonometry Functions
- Area & Perimeter of Polygons
- Pi (π)
- Logarithm properties
- Scientific Notation
- Adding and Subtracting Matrices
- Multiplying Matrices
- Graphing equations
- Solving systems of equations
- Quadratic formula
- Parabolas and hyperbolas
- Protractor skills
- Compass skills
- Properties of triangles
- Geometric mean
- Lateral & Surface area
- Volume
- Chapter Summaries
- ... or find something in your textbook that looks cool
