

Date:	Name of Student	Topics	Hours	Verification

- At the end of the tutoring (at least 10 verified hours) write a reflection of your experience. It needs to include at a minimum:
 - Give a description of the setting, who the students were, what maths they were learning, and whether or not a teacher was present during the sessions.
 - Describe your overall feelings you had as a tutor. What were the difficulties? What was most rewarding? Is this something that you would want to do again? Would you consider doing this as a job?
- Also attach a copy of one of the student's work (you may blank out last names).
- After you complete your presentation, complete the Project Evaluation form and attach.
