

Planning a Road Trip

A Math Project

Purpose: To develop research skills for a real-life event that requires planning and budgeting for expenses.

Plan a Road Trip vacation for 4 people to a destination of your choice. The duration of your stay will be ten days to two weeks. Your task is to convince the other traveling partners that it will be affordable and lots of fun.

- Use Word or Publisher to create a travel brochure or Poster or PowerPoint.
- Research the prices for all activities
 - Gasoline cost
 - Miles per gallon
 - Lodging costs
 - Food
 - Activities
- Use Mapquest or Google Maps to produce a map showing your route. Label all of your stops.
- **Show the Math**, even if it is simple.
- Include pictures that show typical shots of the place you are visiting.
- Give an example of a dinner with costs.
- List various activities that you have the option of participating in, include prices.
- Show a detailed itinerary for each day of the vacation.
- Cite the sources that you used to gather information.
